Sentry Security Systems Inc. announces the Sentry Mobile DVR

4 channel, real-time video and audio recording, shock and vibration resistant.

Kingston — September 20, 2004 — Sentry Security Systems Inc is pleased to announce the release of its new four camera Sentry SMD-04 Mobile DVR. With real time video (30fps/channel) and audio recording capabilities, simple to use IR remote control interface and excellent stability, the shock and vibration resistant Sentry SMD-04 Mobile Series DVR is the optimal mobile video security solution when durability, longevity and high quality video are required. Leading the competition in performance, features, quality and price, the Sentry Mobile DVR is at the forefront of mobile digital video surveillance technology.

"A combination of ease of use with excellent video quality, powerful features and a great price make the Sentry Mobile DVR stand out from the competition" said Michael Demmons, Business Development Manager at Sentry Security Systems Inc. "The Sentry Mobile DVR opens up huge new business opportunities for our dealers and resellers by supplying them with a premium mobile digital video surveillance solution for an ever growing and expanding market."

This Sentry Mobile DVR offers 4 channels of video recording at up to 30 fps per channel (for a total of 120 fps) and 4 channels of audio recording. Recording backup can be done easily via LAN or by connecting a CD-RW or hard drive directly to the DVR. A vehicle status indicator shows vehicle speed, turn indicator and brake functions on recorded video. The Sentry Mobile DVR offers several connection options for in-car monitor operation using the IR remote to control all of the DVR's features. The DVR comes standard with 120GB of storage, but can be upgraded to 250 or 500GB.
