## Press Release

### Industry Leading High Resolution IP Combination

[KINGSTON] Sentry Security Systems Inc. is pleased to announce the release of the new Sentry RP-IP series of 2 megapixel IP cameras. Suited for any application requiring very highly detailed video such as license plate and facial recognition, these IP cameras offer excellent features including 802.11b/g wireless transmission, H.264 compression and dual streaming. The RP-IP series of IP cameras are compatible with the Sentry RP Series of DVR and when used in combination, offer a system with amazing video quality and very high resolution.

"We are proud to offer this new series of IP camera to our dealers, providing them with them a very high resolution IP video solution at an exceptional value," says Mike Demmons, General Manager at Sentry Security Systems Inc. "We feel the launch of this new series is a great way to mark 10 successful years in providing high quality products and services to Security and Network Dealers all over North America."

Key features of Sentry RP-IP cameras include the following:

- 2.0 Megapixel Resolution
- H.264, MJPEG and MPEG4 Video Compression
- Wireless 802.11b/g
- Compatible with Sentry RP Series DVR and NVR Systems
