
Low cost solution to rising crime

Sentry LP Series surveillance solutions come complete with all necessary equipment to effectively and affordably protect your premise. It's an easy-to-use, high quality, reliable digital video recorder system that provides excellent video quality, supports up to 32 cameras and allows viewing of live and/or recorded video from computers with Internet access.

General Overview

LP Series DVR — An easy-to-use, Linux™ based digital video recorder (DVR) that provides excellent video quality and high reliability. Supporting up to 32 cameras, with real-time display/record, digitally recorded video can be optimally compressed for longer recording times, yet still provide excellent image quality and remote access speeds.

This DVR supports control of PTZ cameras, and features remote monitoring, remote recording and viewing by multiple people simultaneously. The advanced motion detection feature allows the definition of multiple motion detection zones per camera. Several methods of notification about intrusions or

abnormal situations are provided.

The Linux™ operating system ensures a high level of stability, security and long-term reliability.

- **Real-Time**
- **Highly Reliable**
- **Up to 32 cameras**
- **Simple to use**
- **Remote Access**

Security Cameras — The images you see and record can only be as good as the images produced by your CCTV security cameras. We offer a complete line of high quality cameras to meet virtually any need.

Choose the solution that suits you best.

Select the LP Series solution if you want an easy-to-use, high quality, reliable solution. Also included is one video/power cable and one 12V power supply per camera. We provide a 1 year parts and labor warranty on this solution (extended warranties are available).

If you need help selecting the best system for your application, call us. We'd be happy to help you and answer any questions you might have. Phone: **866.736.8796** Email: **sales@cctvsentry.com**
