

# Easy-to-Use Digital Surveillance Solution

**Sentry SE Series** solutions come complete with all necessary equipment for installation and use (hardware and software preinstalled). It's an easy-to-use, high quality, reliable digital video recorder system that provides excellent video quality, supports up to 16 cameras with real-time display, and allows viewing of live and/or recorded video from computers with Internet access (can be protected by password). This solution is particularly suited for users with little or no PC

## General Overview

**SE Series DVR** — Full featured entry level digital video recorder (DVR). The SE Series DVR is an easy-to-use, embedded DVR that provides excellent video quality and is a reliable digital video security solution. It supports up to 16 cameras, with real-time display and up to 120fps recording. Dual stream video compression of MJPEG for local recording and MPEG4 for video transmission.

This DVR can be operated by push button, IR remote controller or mouse. Various models of PTZ cameras can be controlled, both locally and remotely and both VGA and composite (BNC) monitors are supported locally

The SE Series DVR can be accessed remotely over Internet or LAN and support dynamic IP

addresses. Recording schedules and motion-detection-based recording is supported.

The Linux-based operating system and software is embedded on a chip instead of written on a hard drive ensuring a high level of stability, security and long-term reliability.

**Sentry 831D** — A color mini-dome CCTV security camera with a 1/3" CCD. This camera is for use indoors where constant lighting conditions make a fixed iris/fixed focal length lens sufficient. It provides 380TV lines of resolution in color, with an excellent minimum illumination level at low-light, and is widely used in retail stores and restaurants.

## Choose the solution that suits you best.

Select the SE Series solution if you want an easy-to-use, high quality, reliable solution. Also included is one remote control, and one video/power cable and one 12V power supply per camera. We provide a 1 year parts and labor warranty on this solution (extended warranties are available).

If you need help selecting the best system for your application, call us. We'd be happy to help you and answer any questions you might have. Phone: **866.736.8796** Email: **[sales@cctvsentry.com](mailto:sales@cctvsentry.com)**

## Advantages of using this Digital Surveillance Solution

- Very stable and reliable, will provide years of worry-free operation
- Easy-to-use interface and operation
- Excellent video quality
- Fast remote access
- Low monthly payments through the Leasing Program

## Digital Surveillance Solution

### DVR Features:

- 4/8/16 channel embedded digital video recorders
- Embedded software/OS (no software on hard drive), for maximum reliability
- Infra-red remote control, on-screen programming or mouse/keyboard control
- MJPEG recording compression, MPEG4 remote transmission for best quality and speed
- Up to 120 frames/sec, recording and 480 frames/sec (real-time) display
- Control with front buttons, remote control or mouse
- Manages storage and recycles space automatically
- Supports VGA and composite (BNC) video display
- Fast remote access with high quality video by Internet browser or client software
- Easy-to-use back-up to USB devices
- Upgradeable, scalable design
