

Sentry V Series DVR Package

The Sentry V Series package comes complete with color cameras and all necessary equipment for installation and use (hardware and software preinstalled). This is a reliable, advanced featured, plug-and-play, PC-based digital video recorder system that provides superb video quality and supports up to 16 cameras with up to real-time recording and display. It is particularly suited for users who need an advanced featured system.

General Overview

V Series DVR — An advanced featured, plug-and-play, PC-based digital video recorder (DVR) that provides superb video quality and is a reliable digital video security solution. It supports up to 16 cameras, with real-time display and recording. Digitally recorded video is optimally compressed yet provides superior image quality and remote access speeds.

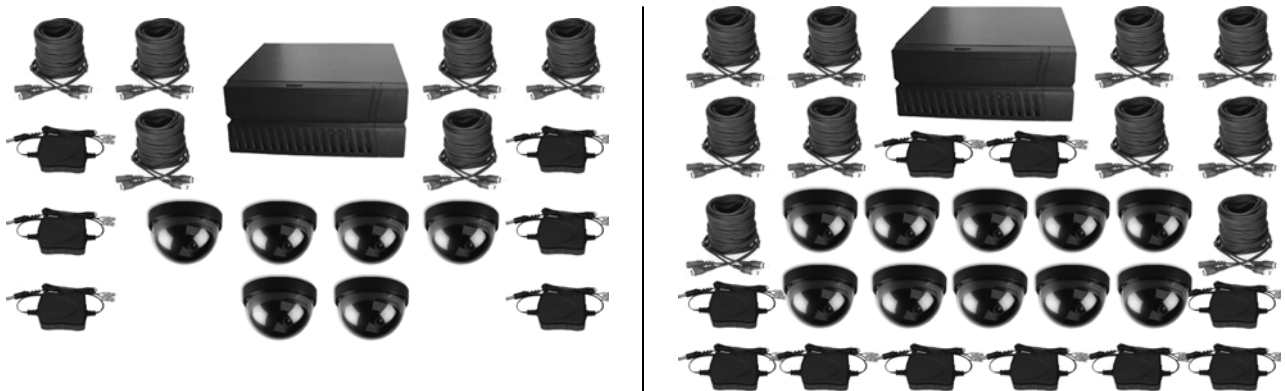

This DVR supports alarm input and output devices, allows control of PTZ cameras, and features remote monitoring, remote recording and viewing by multiple people simultaneously. The advanced motion detection feature allows the definition of multiple

motion detection zones per camera. Several methods of notification about intrusions or abnormal situations are provided instantly. A complete multi-level password access control and audit log ensures a true secured environment.

831D — A color mini-dome CCTV security camera with a 1/3" CCD. This camera is for use indoors where constant lighting conditions make a fixed iris/fixed focal length lens sufficient. It provides 380TV lines of resolution in color, with an excellent minimum illumination level at low-light, and is widely used in retail stores and restaurants.

Choose the package that suits you best.

Select a 6 or 10 color camera V Series DVR package if you want an advanced featured, high quality, reliable, plug-and-play DVR security solution. Also included in the package is one 50' video/power cable and one 12V power supply per camera. We provide a 1 year parts and labor warranty on this package (extended warranties are available).

If you need help selecting the best system for your application, call us. We'd be happy to help you and answer any questions you might have. Phone: **866.736.8796** Email: **sales@cctvsentry.com**
