

Mikros

The Sentry Mikros series is a small yet powerful video management platform. Offered in a mini tower, our Mikros series is particularly well suited for use in smaller retail and business applications requiring recording, viewing and playback from up to 50 megapixels from connected IP cameras.

The Sentry Mikros series are available with Milestone™ and GeoVision™ NVR / VMS software as well as compatible with software from other leading VMS providers such as Exacq™, Genetec™, etc... For more information, please contact a Sentry Account Representative at 1-866-736-8796.

All NVRs built by Sentry Security Systems Inc. feature Seagate Skyhawk Surveillance drives unless otherwise specified or requested.

The Sentry Mikros Series

- Mikros Mini Tower MnT-15MP
- Mikros Mini Tower MnT-30MP
- Mikros Mini Tower MnT-50MP

Mikros Mini Tower NVRs

Small yet Powerful

The Mikros Mini Tower NVRs provide core video management systems for installations that require a compact, rugged chassis. Offered in a compact tower desktop style (Mini Tower), this series is well suited for use in smaller retail and business applications that requiring recording, viewing and playback from 15 to 50 megapixels using traditional video management software with live viewing.
