

4U Enterprise Video Recording Server

With over 20 years of experience designing, building and supporting video recording and management hardware solutions, maXia® Solutions Group crafts more reliable, secure and specifically tuned systems for each application. The maXia® Dynamis video recording server has been engineered for performance and reliability for applications requiring recording, viewing and playback from up to 125 megapixels from connected IP cameras (up to 160 megapixels without live viewing) and up to 96TB of video storage.

KEY FEATURES

- 4U Industrial Chassis
- Lockable Front Doors
- Removable Air Filters
- Intel® 9th Generation Processor
- SSD Boot Drive
- Dual Monitor Support
- Dual Ethernet (Expandable)
- Up to 96TB Video Storage
- Windows 10 Pro
- Pre-installed VMS software
- 5 Year Warranty Available

Performance. Reliability. Security

The Dynamis is designed and tested to run software from the leading VMS providers and is available with many of these software's pre-installed. The combination of high processing power and storage capacity make this platform well suited for use in budget-minded projects that require scalability and/or extended video storage.

5 year warranty is available and can be complimented with our 5 year monitored by maXia autonomous monitoring service with remote diagnostics and repair.

Specifications

System

Drive Bays	N/A
Standard Storage	2 TB
Maximum Storage	96TB
RAID	Optional
Processor	Intel® 9 th Gen
Memory	16GB DDR4
Network	2 x 1GbE (RJ45)
Video Outputs	1 x HDMI, 1 x DVI
Operating System	Windows 10 Professional
Boot Drive	120GB SSD
USB	Front x 2, Rear x 3
Warranty	1 Year (upgradeable)

Mechanical

Form Factor	4U Rackmount
Power Supply	650 Watt
Dimensions	19" x 7" x 20.8"
Colour	Black w/Blue Bezel

Options

Drive Bays	6 Hot Swap Drive Bays
Power Supply	550W Redundant
Data Storage	Up to 6 x 16TB (96TB)
Operating System	Windows Server
Warranty	3 and 5 Year Warranty
Other	RAID 1 OS 200MP Model
