## Description

The Sentry Compact Series of DVRs provide a core set of features and real-time video in a compact, rugged and quiet platform. Unlike its competition (box store systems, retail packages, etc...), features and capabilities have not been removed from our Compact Series in order to meet the price point this market demands. Instead, features and benefits have been added to better cater to this market and packaged in a small (compact) form factor at an exceptional price.

Remote viewing via a PC or smartphone, large 1TB video storage (expandable), continuous/motion/schedule/alarm recording options, easy backup to CD/DVD or USB device and support for pan, tilt and zoom (PTZ) cameras are just some of the features that make the Sentry Compact Series of DVRs a cutting-edge surveillance solution and leading value in the marketplace.
