

Sentry Vehicle Access Control Solution

Lot Management Made Easy

Factory

Community

Office Building

Sentry's Vehicle Access Control Solution creates a better experience for drivers, enabling hands-free entry and exit while reducing overall costs and providing remote access and monitoring to live and recorded video and access control logs for the owner/operator.

Applications

- Condominium/Apartment Parking Garage
- Public or Private Carpark
- Gated Communities or Property
- Commercial/Business Parking

Key Benefits

- Reduces lineups
- No parking attendant required
- License plate recognition capabilities
- Remote monitoring when video enabled
- Remote access management capabilities
- No stopping or rolling down window for access
- Lower cost access tag reduces replacement costs
